Connect By

select   part, subpart,level

from   Assembly

起始节点 --→ start with   part = 'trike'

定义父子关系 --→ connect by prior   subpart = part

                (subpart   part)

connect by prior subpart = part   connect by subpart = prior part

自上而下搜索：先找父节点然后找子节点   自下而上搜索：先找子节点然后找父节点
